

AKAN TOWNSHIP, RICHLAND COUNTY WISCONSIN
APPLICATION FOR DRIVEWAY PERMIT

Name of Property Owner: _____

Mailing Address: _____

Address of Property: _____

New Driveway: _____ Existing Driveway Serving Vacant Land: _____

Surface Material: Asphalt _____ Gravel: _____ Other: _____

Culvert: Yes ___ No ___ Size: Diameter: _____ Length: _____

Attach a location construction plan showing specifications including grade, slope, width, length of driveway, turn around provision and erosion control procedures.

Minimum Specifications: (subject to the discretion of the town board)

Road Surface Width	12 feet
Clearance between Ditch Lines	16 feet (2 ft shoulder on each side)
Clearance free of trees, wires, etc.	18 feet (at the 20 foot surface width)
Maximum Grade	10 per cent
Minimum Culvert Diameter	18 inches

The driveway within the right of way of the traveled portion of the town road shall slope away from the public road to prevent erosion onto the public road. An adequate roadbed base of suitable material to support the projected traffic shall be provided. A culvert of a minimum 18 inches in diameter and 20 feet in length shall be provided. The above shall be enforced at the landowner's expense. Illegal culverts will be removed at the landowner's expense.

In order to maintain fire insurance coverage it is highly recommended that a segment of road surface 25 feet in length and 18 feet in width be provided for each 300 feet of driveway length so vehicles meeting will be able to pass. At the end of all new driveways a turn around of at least 25 feet in radius or some other method to allow vehicles to turn around be provided. **All requirements are at the discretion of the board.**
